

Over the years, Stuart Turner have grown through organic expansion and acquisitions to help strengthen our product and service to customers across our sectors - all with one unifying aim: POWERING WATER.

**STUART TURNER:** An internationally recognised pump and water boosting solutions manufacturer with an innovative heritage and reputation for product quality, reliability and customer service.

**FLUID WATER:** Specialists in standard and bespoke cold water booster sets and associated equipment to the building services industry, the Fluid Water brand has been incorporated into Stuart Turner and today is known as our Aquaboost range.

**MIKROFILL:** Design, manufacture and supply of sealed system pressurisation units, cold water booster sets, heating and hot water systems. Acquired to strengthen our commercial and specification offering.

**AQUATECH PRESSMAIN:** Enhancing our commercial offer with specialist booster sets and pressurisation systems.

**AGM:** Strengthening our Group offer with servicing. Our AGM team can service, commission, repair and undertake emergency callouts for water boosting and pressurisation systems - of any manufacturers equipment as well as fix waste water systems and offer water hygiene testing. We also offer fixed fee maintenance contracts to ensure your equipment stays at maximum efficiency.

Working within the Residential and Commercial sectors, Stuart Turner Group are ideally positioned to support customers. We offer a wide range of water boosting solutions from shower boosting pumps to large commercial booster sets, including bespoke solutions. We are able to design and manufacture commercial booster sets including dimensionally interchangeable options, with all units (standard and bespoke) pre-commissioned prior to delivery. All our products are wet tested, prior to delivery as part of our quality assurance. As a Group, we aim to maintain maximum water performance through our range of water boosting equipment and ongoing service plans, offering unrivalled support from a reputation you can trust.

We are renowned for our high level of customer service. Our highly trained technical specialists are available to provide help and support on any aspect of product selection, installation and technical advice. That's why our customers rate us as 'Excellent' on Trustpilot. <https://uk.trustpilot.com/review/stuart-turner.co.uk>
